No Contact
Sanitizer Dispenser

Features

- Hygienic, fully automated all-in-one temperature kiosk with touchless thermometer
- Thermal Scanner reads temperature in less than 2 seconds from up to 3 feet away
- Maintain a safe environment with our Temp+ by reducing risk and limiting access
- Reduces stress and anxiety for consumers and employees
- The fastest and most accurate Temperature Scanner system on the market
- The facial recognition feature has advanced AI to recognize users that are wearing masks and still provide an accurate reading. Plus, it can remind guests to wear their mask before entering.
- Easy Plug and Play Set Up
- Can be connected with automatic doors, or ticketing systems to restrict entry access to people who have a fever.
- Offline and online facial detection
- User friendly interface
